THE STATE OF OHIO v. FERAS HAMDAN (CR-25-703449-A)

Expert Witness - Tesla Vehicle Data Authentication / Tesla Toolbox (Cloud) Logs

Vehicle: 2023 Tesla Model Y | VIN: 7SAYGDEE7PF607442

Date at Issue: June 19, 2025 | Data Access/Download Date: July 18, 2025

EXECUTIVE SUMMARY • Data source: Tesla Toolbox (cloud platform). • Vehicle: 2023 Tesla Model Y (VIN 7SAYGDEE7PF607442). • Date at issue: June 19, 2025; retrieval/export: July 18, 2025. • Key finding: Front passenger-side window reflected as closed after approx. 9:10 AM and remained closed for the remainder of the morning (per the log exports). • Integrity: Exported to CSV/PNG from Tesla Toolbox and transmitted to counsel without editing or alteration.	TECHNICIAN QUALIFICATIONS (AT-A-GLANCE) Firas Almukdad Owner, TeslaMend (Macedonia, Ohio) Master Level Tesla-Certified (2020) Approx. 10 years Tesla/automotive diagnostics experience Contact: (440) 485-1263 admin@teslamed.com
--	--

Counsel:

I was asked by The Elkhatib Law Office to provide a technical expert opinion concerning Tesla-generated vehicle data tied to the criminal complaints involving Dr. Feras Hamdan. A key factual issue in the case is whether the vehicle's recorded telemetry aligns with the prosecution's narrative of events on the morning of June 19, 2025 - including the reported status of the front passenger-side window and related time-stamped vehicle activity. My role was to obtain and review the relevant data using Tesla Toolbox, Tesla's cloud-based portal available to the vehicle owner, and to assess whether the exported records are authentic, unaltered Tesla outputs and what they objectively indicate about the window position and other logged data points. This report summarizes my credentials, the scope of the questions presented, the steps used to retrieve and preserve the data, my findings, and my resulting opinions.

QUALIFICATIONS

My name is Firas Almukdad. I am the Owner of TeslaMend, located in Macedonia, Ohio. I am Master Level Tesla-Certified (certification obtained in 2020) and I have approximately ten (10) years of experience working with Tesla vehicles and automotive diagnostic systems. My work includes accessing, retrieving, and reviewing Tesla diagnostic/event information and logs as part of routine service and

diagnostic workflows.

QUESTIONS ASKED

You asked me to address the following:

1. Whether the Tesla data that was provided to the State (including the CSV/PNG outputs and the underlying Tesla Toolbox log information from which they were generated) is authentic Tesla data for the identified vehicle and whether it is reliable/accurate in the ordinary course of Tesla data logging.
2. Whether the Tesla data reflects that, from approximately after 9:10 AM on June 19, 2025, the front passenger-side window was closed continuously for the remainder of that morning (as reflected in the log data), along with the reliability of other data points shown in the same dataset.

MATERIALS REVIEWED / DATA SOURCE

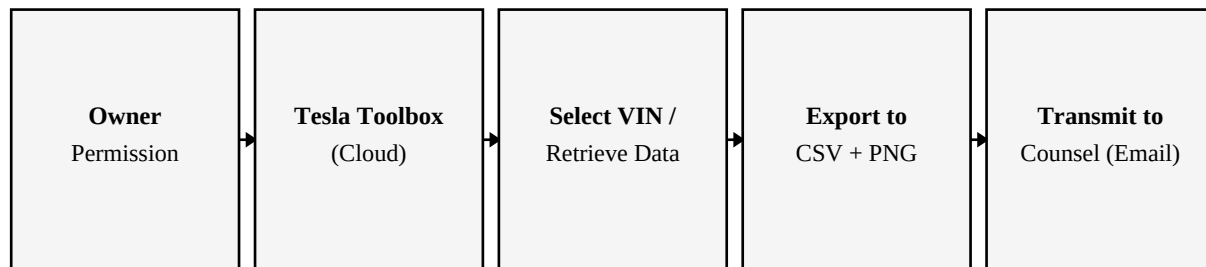

On July 18, 2025, at the request of defense counsel and with permission from the vehicle owner, I accessed and downloaded Tesla vehicle information for a 2023 Tesla Model Y, VIN 7SAYGDEE7PF607442, using the Tesla cloud platform known as Tesla Toolbox. The information was exported into CSV and PNG formats and transmitted to The Elkhatib Law Office by email.

The vehicle owner is Dr. Abdallah Ali, who provided permission for access for purposes of retrieval and review of this vehicle's data.

METHODOLOGY (PROCESS SUMMARY)

Step	Action (as performed)
1	Accessed the vehicle's Tesla cloud-based data using Tesla Toolbox for VIN 7SAYGDEE7PF607442.
2	Downloaded the applicable vehicle log/data outputs from Tesla Toolbox and exported them to CSV and PNG.
3	Stored the export files on a shop laptop and transmitted the exported files to The Elkhatib Law Office by email.
4	Provided the exported files in the same form as generated by Tesla Toolbox; no edits, manipulation, or alteration were performed.

DATA RETRIEVAL PIPELINE (VISUAL SUMMARY)

MATERIALS REVIEWED / OUTPUTS PROVIDED

Item	Description	Format	Retrieval/Export & Transmission
Tesla Toolbox export(s)	Vehicle data/log outputs for VIN 7SAYGDEE7PF607442 (June 19, 2025 dataset).	CSV	Retrieved/exported July 18, 2025; emailed to The Elkhatib Law Office.
Tesla Toolbox export image(s)	Rendered/graphical output(s) associated with the same Tesla Toolbox exports.	PNG	Retrieved/exported July 18, 2025; emailed to The Elkhatib Law Office.

FINDINGS

Based on the Tesla Toolbox data downloaded for VIN 7SAYGDEE7PF607442 and the exported materials provided to counsel:

1. The dataset reflects that the vehicle's front passenger-side window was closed beginning approximately after 9:10 AM on June 19, 2025, and remained closed continuously for the remainder of that morning as reflected in the log information.
2. The remaining data points reflected within the same Tesla Toolbox exports are consistent with system-generated Tesla vehicle data for that VIN and date and are presented in the manner Tesla Toolbox provides such information when downloaded.

WINDOW STATUS SUMMARY (AS REPORTED BY TESLA TOOLBOX EXPORTS)

Parameter	Time Reference	Reported Condition	Notes
Front passenger-side window	Approx. after 9:10 AM (June 19, 2025) through remainder of the morning	Closed continuously	Based on the exported Tesla Toolbox log/data outputs provided to counsel; specific timestamps/fields are contained in the CSV export(s).

OPINIONS

Based on my Tesla certification, experience, and the method of retrieval described above, I offer the following opinions:

1. The exported Tesla data provided to The Elkhatab Law Office was sourced from Tesla Toolbox (Tesla's cloud platform) for VIN 7SAYGDEE7PF607442 with permission from the vehicle owner, and it constitutes authentic Tesla-generated vehicle information for that vehicle.
2. The data, as exported into CSV and PNG formats from Tesla Toolbox and transmitted to counsel, is reliable and accurate as Tesla vehicle data for the VIN and date at issue.
3. The Tesla Toolbox export format and the substance of the downloaded information are objectively consistent with the type of Tesla data one would expect to receive when retrieving data for a specific Tesla vehicle through Tesla Toolbox, including the information reflected regarding the front passenger-side window being closed after approximately 9:10 AM on June 19, 2025, and the other data points shown in the same dataset.

EXHIBITS / ATTACHMENTS (FOR INCLUSION WITH THIS REPORT)

Exhibit 1: Tesla Toolbox CSV export(s) for June 19, 2025 (VIN 7SAYGDEE7PF607442).

Exhibit 2: Tesla Toolbox PNG export image(s) associated with the same data set.

Note: File-level checksum/hash values can be generated and added upon production of the original export files in their native form.

AVAILABILITY

I am available to testify regarding (a) my qualifications, (b) the method by which the Tesla Toolbox data was accessed and exported, (c) the authenticity and reliability of the exported information, and (d) the window-status and related data points reflected in the Tesla Toolbox exports. Remote appearance by Zoom is preferred if permitted.

Respectfully,

Firas Almukdad

DECLARATION OF FIRAS ALMUKDAD

RE: TESLA VEHICLE LOG AUTHENTICATION

I, Firas Almukdad, declare as follows:

1. I am the owner and lead technician at TeslaMend, located at 585 Highland Road East, Macedonia, Ohio 44056. I am over eighteen years of age, competent to testify to the matters herein, and make this declaration based on personal knowledge, training, and experience.
2. I am a Tesla-certified Master Technician, having completed Tesla's official training program in 2020. I have over 10 years of experience working on Tesla and other electric vehicles and am also certified in diagnostics and repair for Nissan, Acura, Lucid, and other manufacturers. My qualifications include advanced certifications in vehicle electronics and diagnostics.
3. On July 18, 2025, at the request of Ali Abdallah and The Elkhatib Law Office, I accessed and retrieved vehicle data from a 2023 Tesla Model Y, VIN 7SAYGDEE7PF607442.
4. Using Tesla's diagnostic platform known as Toolbox, I extracted Toolbox logs from the vehicle's internal systems. These logs are automatically generated by Tesla's systems and record system events such as window status, door activity, and other vehicle operations with accurate timestamps corresponding to real-time behavior.
5. The data was extracted directly from Tesla's cloud server via the authorized service interface, exported in CSV and PNG formats, stored on my shop laptop, and emailed to The Elkhatib Law Office. The files were never altered, modified, or tampered with in any way after extraction.
6. According to the log data, from approximately 9:10 AM on June 19, 2025, the front passenger-side window remained closed continuously for the remainder of that morning, with no recorded open events or status changes until at least noon when data collection ceased.
7. I did not make any duplicate copies of the data, and no other individuals accessed the original extraction files. The filenames and formatting remained consistent and unchanged.
8. I am willing to sign a sworn affidavit affirming the authenticity of the logs and the method of extraction. I am also willing to testify in court - preferably remotely via Zoom - regarding the authenticity, handling, and interpretation of the Tesla logs. My availability and compensation terms for testimony can be discussed if necessary.
9. Based on my training, certification, and professional experience, I affirm that the data provided is authentic,

RE: TESLA VEHICLE LOG AUTHENTICATION

accurate, and produced by Tesla's internal systems in the regular course of the vehicle's operation.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

Executed on July 25, 2025

in Macedonia, Ohio.
